

SAAD HASSAN

Flutter Developer | Cross-Platform Mobile Engineer

+92 320 8369134 | saad0416@gmail.com | [LinkedIn](#) | [GitHub](#) | Islamabad, Pakistan | Open to remote or relocation

SUMMARY

Flutter developer with 2 years of production experience. Five apps shipped across e-commerce, healthcare, and emergency response; 4 are live on the App Store and Google Play. I've owned full release pipelines, handled crash triage, and maintained apps post-launch. Currently building two SaaS products solo. Open to Junior-to-Mid Flutter roles: on-site in Islamabad, remote, or relocation.

SKILLS

Mobile: Dart, Flutter (2 yrs), SwiftUI, iOS, Android

State Mgmt: Riverpod, Bloc, Cubit, GetX

Architecture: Clean Architecture, MVVM, MVC, GetIt dependency injection

Backend: Node.js, TypeScript, Express, FastAPI, REST APIs, PostgreSQL, Drizzle ORM

Frontend: React, Vite, JavaScript, HTML, CSS

SDKs: Firebase (Auth, Firestore, FCM), Stripe, Google Maps, Agora

DevOps: Git, GitHub Actions, Fastlane, DigitalOcean, Firebase App Distribution

Stores: Google Play, Apple App Store, TestFlight (4 apps published)

EXPERIENCE

Mobile Developer (Flutter) | IntegCubes

Jun 2026 – Present

On-site, Islamabad, Pakistan

- Maintaining and developing Flutter apps for 2 production lab diagnostic platforms, [Nayab Labs & Diagnostic Centre](#) and [Al Nasar Lab & Diagnostic](#), handling bug fixes and small feature changes.
- Shipped 2 Google Play store updates each for both apps within the first week on the job.

Flutter Developer | LaunchBox Global

Aug 2023 – Jan 2025

On-site, Karachi, Pakistan

- Shipped 4 production apps to App Store and Google Play across e-commerce, healthcare, and emergency response. Contributed frontend work to 2 additional builds.
- Built a shared widget library in Clean Architecture across 5 projects and 200+ screens. Cut delivery time by about 30% and onboarding time from 2 weeks to 1.
- Integrated Stripe, Firebase, Google Maps, and Agora across 3 codebases. Reduced per-feature integration time by about 40%.
- Owned release pipelines for 4 titles: signing, staged rollouts, Crashlytics monitoring, and hotfix distribution via Firebase App Distribution and TestFlight.
- Triageed and resolved 20+ production bugs across 4 post-launch titles. Hotfix turnaround averaged under 48 hours.
- Built [TeamLynk](#) as primary mobile engineer on a 4-person team: BLoC, GoRouter, GetIt, live GPS, and Agora real-time chat, from spec to App Store launch.
- Delivered [Rentibles](#) ([App Store](#)), an 80+ screen e-commerce marketplace with search, cart, and Stripe checkout, shipped to both stores in 6 months.

Flutter Intern | Elite IT Team

Jul 2023 – Aug 2023

Remote

- Converted 15+ Figma screens into responsive Flutter layouts using GetX. Built 8 REST API integrations via Dio with error handling and loading states.

FOUNDER PROJECTS

Founder | Bizintel

Oct 2025 – Present

app.bizintell.org | React, Vite, Node.js, TypeScript, FastAPI, PostgreSQL

- Built dual-backend auth with JWT, HttpOnly cookies, and refresh token rotation across 2 services, handling 3 token states in Node.js/TypeScript/Express and FastAPI.
- Designed a document parsing pipeline for PDF, Excel, and Word that returns reports, charts, insights, and predictions via GPT-4o-mini.
- Running 2 production services on DigitalOcean with CI/CD, environment config, and uptime monitoring.

Founder | **Work-folio**

Oct 2025 – Present

React, Vite, NestJS, FastAPI

- Built a React/Vite frontend, NestJS API gateway, and FastAPI AI microservice with a 4-step flow, live streaming preview, and ATS scoring across 6 weighted scorers.
- Sole engineer, product owner, and go-to-market lead. One-time-payment SaaS targeting 3 output formats.

Creator | **Flutter Knowledge MCP**

2026 – Present

[npm package](#) | TypeScript, Node.js, MCP

- Built a static analysis engine for Flutter and Dart projects, exposed as an MCP server so it plugs directly into AI coding tools.
- Published on npm as a public beta, with analyzers covering code quality, architecture, and state management.

OTHER PUBLISHED APPS

- MaidSimpl: On-demand cleaner booking platform with two paired clients (user and cleaner), Stripe payments, scheduling, and 20+ user-facing screens.
- FareShare: Medical ride-sharing app with 3 booking states and separate driver and patient flows, deployed to iOS and Android.

EDUCATION

BS Computer Science | FAST NUCES, Karachi

2019 – 2023

National University of Computer and Emerging Sciences
